## UK to/from EU as of the 1<sup>st</sup> January 2021 – Changes

Exporting processes will change. When you export to EU countries, you will need to follow the processes that currently apply to trading with non-EU countries.

### **(1) PRE-ENTRY (EXPORT)**

From the 1<sup>st</sup> January 2021 all cargo being exported to EU Countries will require an Export Customs Pre-Entry in the same manner applied for trading with all other non-EU countries.

Globelink Fallow already has the infrastructure in place to present Customs Entries on your behalf as direct representatives.

In order for us to present a pre-entry, we will need to be supplied with (in advance of shipment):

1. Export Commercial invoice / Packing List
2. Export Goods Customs assigned – Commodity Code

Should you wish us to present to customs on your behalf, please contact us for prices.

Further advice can be obtained by visiting the following UK Government website

### **(2) WOODEN PACKAGING (INCLUDING PALLETS)**

From the 1st January 2021 all cargo being moved both ways between the UK and EU Countries, it will be a legal requirement for all wood packaging to be compliant with treatment and marked as specified in the International standard for phytosanitary measures No 15 (ISPM15)

We would also like to ask you to make your Exporters and Importers aware of these changes, as invariably they may also have changes to Importing Customs regimes within the EU, which may affect the timely delivery of goods.
